GREAT

American and Foreign Office,

—FOR—

Securing Patents for Inventions

...BUSINESS WITHIN THE ... PATENT OFFICE, WASHINGTON

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, late Agent of the U. S. Patent Office under the Act of 1837, is determined to present advantages in applying for patents, superior to those offered inventors by others having like engagements, whereby their applications prepared and conducted by him will be ... FOLDED ... [illegible] ... *three to one against their being rejected by others*, will be rejected by him on the score of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

Thus ... is not only the largest in New England but throughout, inventors have advantages of securing patents, or ascertaining the points ... unsurpassed by, if not ... to, any which can be offered them elsewhere. The testimonials below, from those ... MORE SUCCESSFUL AT THE PATENT OFFICE than the solicitors ... ARE ACCESSIBLE TO THE BEST ... AND ... ADVANTAGES AND ABILITY he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the ... for professional services so moderate. The extensive practice of the subscriber during ... past ... has enabled him to accumulate ... decisions relative to patents ... These ... are ... to ... Legal and mechanical works and ... accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments and all Papers and Drawings necessary to the procuring of patents in the United States and foreign countries, prepared ... and ... attended to. Also, examinations ... as to the novelty of inventions, and ... respecting infringement of patents. All ... sent to Washington ... to procure ... and ... attended to.

...Models must be forwarded to the subscriber at Boston, and ... will be ... to the Patent Office at Washington.

...Communications ... addressed to the subscriber at Boston, ... post paid, will receive prompt attention.

...Reference is kindly permitted to the following gentlemen, who have ... the services of the subscriber:

...Hon. EDMUND BURKE, Commissioner of Patents, Washington, D. C.

...Hon. CHARLES MASON, late Commissioner of Patents, Washington, D. C.

Kansas Correspondence.

OSAWATOMIE, KANSAS, Jan. 25, 1856.

Editors of the Whig & Courier.

GENTS:—I embrace the present opportunity to write a few lines to you, descriptive of the State of Kansas, its present position, future prospects &c. The face of the country is a high rolling prairie, of a rich quality, producing all the grains and vegetables which are produced from Virginia to the extreme North, and will, when cultivated, produce all the fruits which can be raised within the above named lattitudes. Lime and sandstone of good quality for building purposes, abounds in all parts of the State, coal of very good quality has been found in many places, near the surface of the ground, and doubtless exists in quantities sufficient for all domestic purposes, if not for export. About seven-eighths of the face of the country is open prairie,—the balance, consisting of bottom lands, is covered with timber, mostly oak of various kinds; the burr oak is the best and it grows very large, some trees are sixteen feet in circumference. Black walnut also grows here very large, and cottonwood and sycamore. There are many kinds of timber of less importance, such as hickory, hackberry, pecan, locust, mulberry, coffee-bean, slippery elm and paw-paw, which though not suitable for lumber for building purposes, are very useful for fuel and fencing. Water in the smallest streams in this country, most of the streams have been nearly dry for several months the past season, it has been unusually dry. Living springs are very scarce, though there are a few excellent ones.

When this country becomes extensively peopled with a race of white freemen, there are now many tribes of Indians in it, it will be one of the best agricultural districts in the world, particularly for stock raising and wool growing.

Kansas is a free State, and will remain so, unless a few free soilers in it are exterminated, which would not be an easy task for the ruffians at present, and they (the free soilers) are growing stronger every day. It is only necessary for the State Government to go into operation, under the admirable Constitution which it has framed and lately adopted, and enact a code of good and wholesome laws, prohibiting the immigration of all negroes into the State, to convince the people of Missouri that Kansas

[illegible] for with slavery in general. When that is accomplished, I hope the strife will end; for I am fully of opinion that a majority of the people of Missouri had rather that Kansas should be a free State than otherwise, for they will exclude free negroes [illegible] the State as soon, and is now kept up by a set of slavery propagandists, who keep the people of Missouri in a ferment, by publishing in all the papers, the most abominable falsehoods of free-state men. If there was any truth in what the President of the United States, all of these troubles might have been avoided. One regiment of mounted men, with Sharpe's rifles, stationed in Kansas, would have kept the peace without any difficulty. But by some means, Mr. Buchanan has made himself the tool of slavery, and the laughing stock of the world. Kansas asks nothing at his hands, if she can be left alone, until such time as Congress sees fit to admit her as a free State into the Union. And until that time, she will maintain her rights at every sacrifice, unless crushed by overwhelming numbers.

[illegible] And so shall it be with those slavery propagandists. Every attempt to crush out freedom has added new strength to it, not only by arming the free soilers to a more determined resistance, but by giving us recruits from the enemy's camp. I know several men, who came here strong pro-slavery men, who are now squaky strong free soilers, and it need be, will fight to the death, in maintenance of the rights of freedom.

The free soilers of Kansas have planted themselves upon the organic act which established the territorial government of Kansas, and claim the right to make Kansas a free State if by the squatter sovereignty doctrine it is. That was evidently designed to make Kansas a slave State. But the very verb, which says "When the girls would destroy, they first mad-ma'm," is by the vernacular of Kansas, Henry Clay which the immortal administration at Washington and its myrmidons in Missouri have made, has served to strengthen the free State cause in Kansas, and all true-hearted, well-informed, sober, thinking men of Missouri.

I had the honor of being a member of the Kansas Free State Convention, and I can truly say that I was never in a deliberative body where there was more talent displayed or better order maintained than there. Of course there were many aspirants to office disappointed. But with few exceptions, they acquiesced cheerfully in the doings of the Convention. We put in nomination, and have since elected a set of men, who I doubt not, will do themselves honor in firmly establishing a free State government in Kansas.

Yours truly,

NOAH BARNES.

The United Service Gazette, of the 29th December, says: "Major General Wetherall, the gallant defender of Kars, although connected with several northern families, is an American, and has no immediate relations in England. His family are now residing in America."

A sleighing party from Lee Mass. visited Pittsfield recently, and consisted of 26 six horse omnibuses, 13 four horse do., 9 two horse sleighs, and single teams too numerous to mention." The party numbered 330.

A Bill has passed the House in the Tennessee Legislature, authorizing the Senate to purchase five hundred acres of the ground—including the tomb of Jackson and the buildings of the Hermitage for $50,000.

ENGLISH RAILWAYS.—Mr. Robert Stephenson, the President of the Institution of Civil Engineers, has just delivered an address to that body on the Railways of the United Kingdom, in which he quotes some statistics that may be interesting to American engineers. At the end of 1854 the total number of miles completed was 8054, at a cost of £286,200,000. Of this sum £14,000,000 were paid for parliamentary expenses, and £70,000,000 for land and property. The receipts for the year 1854 were £28,215,000, and the number of passengers carried was 111,000,000 each passenger having averaged a distance of 12 miles. The proportion of accidents was two among every 7,000,000 for 9,000,000 passengers. The cost of running a train capable of carrying 100 passengers was estimated at less than 1s. 3d. per mile. The number of men employed on railways was 90,000 directly and 70,000 collaterally, making a total of 160,000, who represent with their families 500,000 souls. Hence one in fifty of the entire population owes their subsistence to this source. The electric telegraph is in operation on 7,200 miles and the extent of wire is 36,000 miles.

THE BRITISH TREATY WITH JAPAN.—The Treaty differs very little from that which was made by the United States. By the latter the ports of Simoda and Hakodade were thrown open to American vessels; by the former, British vessels obtain the right of entering and taking in supplies at Hakodade and Nagasaki. But as both treaties contain a clause stipulating that the Japanese shall concede to the foreign Power with which it contracts equal rights to those enjoyed by the most favored nation, it would seem to follow that the three ports of Nagasaki, Simoda and Hakodade are at present open to both British and American vessels. The British treaty, however, contains no stipulation for the settlement of foreigners in Japan.

THE COLDEST JANUARY.—According to the record kept at the Pennsylvania Hospital, the mean temperature of the past month was 24deg. which is 8deg. below the average for the last 30 years. It was the coldest January on the record, though January 1840 was within a fraction of the same temperature.

The Lecture by Ralph Waldo Emerson was not delivered last evening, on account of the non-arrival of the Lecturer, from detention of the cars beyond Portland. He is announced for this evening.

MAINE MANUFACTURES.—Mr. Wheelock, Commissioner to the Paris Exhibition, from Maine, says in his report:

"One of the most important branches of business the out door State, at the present time, would be the trade to Europe in manufactured lumber. All articles for building, or wood-work [illegible] would find a very large profit in any of the countries of Europe. Their woods suitable for carpenter work, have become very scarce there, and much more than that, they have not introduced machinery in their manufacture, and will not soon be likely to. Doors, sashes, blinds, and various other articles of the kind could from our woods may be sold for very much more than their value here with us.

In the manufacture of machinery the country is becoming largely interested, very successfully so. By proper means, this branch of business might be extensively entered into for foreign trade. In the opinion of practical mechanics who have visited the Universal Exhibition, the Companies from Canada, the machinery exhibited at the United States Department is superior to any seen at the great exhibition.

THE NEW YORK STOCK MARKET.—On Tuesday, the New York Stock Market was very quoyant; the business was larger than ever before known since the board was established. Great excitement existed during the session, and the adjournment did not take place until quarter past one o'clock. The sales included 46,000 shares of stocks, and $200,000 bonds. The private transactions were also large. The anxiety to purchase was great, and every offer to sell was immediately accepted. At the second board there was a little reaction, but towards the close prices again appreciated, and the market closed very firm.

The sudden turn of stocks seems to have been the effect of an overstrung confidence in the peace news by the Persia.

The Springfield Republican says there is a woman in the house of correction in that city, who has an infant with horns and a child some fourteen months old. The youthful prisoner has caused much trouble of late, on account of its unceasing cries; and when the jailor inquired, the other day, if anything could be done to remedy the evil, the mother replied that she didn't think anything could, unless rum were given it, which she used to drink, and always before she thought cause of the trouble. It appeared that the child had been in the habit of, stupifying the child with rum, in order to leave it for the performance of the day's work abroad.

WHO REFUSES THE MISSING LEGACY.—The Norwalk Experiment says that Mr Wise the Aeronaut, has written to the postmaster of that village, making inquiries as to the kind of material, the quantity of silk, the amount of gas, &c of the balloon in which Wilkes Booth made his no doubt fatal ascension.

The Experiment says Mr. Wise's letter carefully avoids the subject, and he appears to be perhaps a little afraid of the "spook" that Mr. Winchester may be said. As we are permitted to make extracts, we give the entire answer in Mr Wise's own language as follows:

If he came down in any of the States, something no doubt would be found of his apparatus in 1852, a Mr Read ascended with his balloon from Barcelona in Spain, and the newspapers of the day said it is supposed that he was lost, but a few weeks ago a citizen of note in Europe, who is engaged in the investigation of aeronautic movements, made the following slip out from a newspaper. "Two years ago, the French Aeronaut Mr Arban, made an ascent from Barcelonia, and was not again heard from till the other day, when he made his appearance once more. His balloon had gone to Africa, the inhabitants seized and made a slave, and but recently effected her escape." Now if nothing has been found of Mr Winchester's balloon, this throws just a faint glimmer of light that he may yet be alive.

Fainter enough, we should say.

FIRE IN WINTHROP.—A shoe stripping house connected with Messrs. Craig's door and sash factory, in Winthrop village, was burnt last week, loss about $300.

The large drug and store house belonging to the oil carpet manufactory belonging to Charles Bailey, in Winthrop, took fire and was burned together with a large amount of finished goods on Thursday night last week. Loss about $6000; about $4000 or $5000 covered by insurance.—*Maine Farmer.*

SHIPS ON FIRE.—On Wednesday last, the police of Montreal received two hundred and ninety loaves of bread, at the rate of [illegible] on account of this [illegible] ing of light weight, and distributed them among the charitable institutions of that city.

LEGISLATURE OF MAINE.

SENATE.—Mr. Swasey on Bills in the 2d Reading entitled "An act to establish in the City of Portland," by making the Recorder appointed by the Governor

Mr. Swasey briefly explained the reasons for moving the amendment.

Mr. Barnes concurred in the remarks of the gentleman in favor of the proposed amendments to the Constitution would require the Judge to be elected by the citizens of Portland, thereby rendering it probable that the Recorder would always be selected from among those citizens. If the Judge had the power to appoint the Recorder, that would also be taken from among the citizens of Portland.—This would be improper, in view of the fact, that the courts of the Recorder would have county jurisdiction, and if the appointment of the Recorder was left with the Governor, it may happen that a suitable person from some other part of the county will receive the office.

The amendment was then adopted and the bill passed to be engrossed.

Mr. Sewell by leave, laid on the table bill "an act to incorporate the Bucksport Manufacturing Company." Referred.

Mr. Hayden presented a petition of Chas. B. Merrill, against changing the name of the town of Hilmarnock; referred.

Order from the House appointing a Committee to examine into the affairs of the Land Office for the past ten years, was passed in concurrence, and Messrs. Burleigh, Farley and Goodwin, joined on part of the Senate.

Passed to be engrossed—An act to prevent the destruction of fish in Bradbury Pond. Adj.

HOUSE.—On motion of Mr. Talbot, of Lubec, a committee of five on the part of the House, with such as the Senate may join, was ordered to be appointed to examine into the affairs of the Land Office, with power to send for persons and papers.

Mr. Lewenseller of Thomaston, Seavey of Saco, Todd of Portland, Emerson of Monroe of North Anson, were appointed by the Speaker.

Bill to incorporate the Bucksport Manufacturing Company.

Communication from the Governor, submitting the pay roll of the Council, ordered to be paid by the order of Gov. Morrill in 1855, was referred to the Committee on Claims.

Mr. Blake of Bangor, presented a petition to promote the education of the Penobscot Indians; referred.

CONSERVATIVE CHARACTER OF THE REPUBLICAN PARTY.—The Republican party unless we greatly mistake it, will not be generally liberal and to [illegible] its propriety, and to [illegible] that the

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, Feb. 14.

SENATE.—The Senate resumed the consideration of Mr. Wilson's resolution, calling on the President for all the information in his possession respecting the disturbances in Kansas, affecting the freedom of elections.

Mr. Weller said, as the President had sent a special message to Congress on that subject, he saw no necessity for the resolution. He took it for granted that the Senate has already all the facts in possession of the Executive.

Mr. Fessenden replied, that there were points of inquiry in the resolution relating to which they have no information. It was proposed that Congress should have authentic information instead of being obliged to depend on newspaper reports, especially as regards this subject, on which the public mind is so much agitated.

Mr. Geyer denounced the Emigrant Aid Societies, which sent men to Kansas to control elections, which were unprecedented organizations. He was willing to have enquiry into the matter if the action of these Societies is to be included in the investigation.

Mr. Toucey hoped the Senate would adopt the resolution in proper form, calling on the Executive for full information relative to Kansas affairs. He approved, in the fullest manner the President's proclamation, and the course therein suggested.

Further discussion was postponed.

The debate relative to the proceedings of the Naval Board was resumed.

Mr. Butler considered the Board as the most odious tribunal ever instituted in this or any other country.

The debate involved in effect the repeal of the law under which the Board acted.

Adjourned to Monday.

LATER FROM CALIFORNIA.

NEW YORK, Feb. 14

The steamship St. Louis, from Aspinwall the 9th inst., arrived this evening, bringing California mails of the 21st January, about five hundred passengers and $1,025,000 in specie, principally consigned as follows:—Drexel & Co. $200,000; Wells Fargo & Co. $192,000; Metropolitan Bank $160,000 Wm. Hoge & Co. $102,000; Duncan Sherman & Co $55,000; Falconer & Co. $47,000; and others

The St. Louis connected with the John L. Stevens, which spoke North of Cape St. Lucas, bound to San Francisco, on the 3d February, whale ship Hill-man, of New Bedford, with 1600 barrels oil: all well.

The steamer Panama, from San Francisco via Mexican ports, arrived at Panama on the 2d inst., and U. S. ship John Adams, from Feejee Islands via Valparaiso, arrived at Panama on the 3d.

Isthmus news unimportant. Valparaiso dates to the 1st and Callao to the 11th January, had reached Panama.

About a dozen buildings were burnt in Valparaiso Christmas day, and six foreign seamen and citizens perished in the flames as they were endeavoring to subdue them.

A treaty of commerce, amity and friendship between the United States and Chili is said to have been formed.

The United States sloop-of-war St. Marys was at Valparaiso.

Business at Valparaiso had been rather more animated, but the export trade was dull.

From Peru and Equador there is nothing of importance.

Melbourne, Australia, dates are to November 25th. Nothing important. Gold had declined to £3 14s 6d. At Geelong business was rapidly improving. Flour was selling at £49 a £50 per ton.

Election of U. S. Senator.

BALTIMORE, Feb. 14.

Anthony Kennedy was to-day elected, by our Legislature U. S. Senator from Maryland, in place of Hon. Thomas G. Pratt.

Markets.

NEW YORK, Feb. 14.

Flour. Common grades are dull and lower; medium and good grades in fair request for export and home consumption at full prices; 7,37 a 7,75 for common to extra State and mixed to fancy Michigan; $7,60 for fancy and low grades extra Indiana, Illinois, Wisconsin and Ohio; 8,50 a 10,50 for extra Genesee; market closing steady for the good, and very heavy for the inferior; Canadian quiet at 7,75 a 10.

Wheat firm. Limited demand for export; good inquiry for home consumption. Prime white St. Louis 2,12; Red Tennessee 1,90.

Rye unchanged.

Corn dull and lower; 75 a 82 for new Southern and Jersey, in store, and declined; 80 for mixed Western.

Oats unchanged.

Pork without important change; 15,75 a 15,81 mess; 13,75 a 13,87 for prime.

Beef heavy; 9,00 a 9,62 for country prime; 11,00 a 14,25 for re-packed Western.

Beef hams and prime mess beef dull, and nominally the same.

Sugar firm; New Orleans 8 a 8¾; Muscovado 7¾ a 7¾.

Molasses dull; New Orleans 41 a 44; Cuba clayed 35.

There were postponings of the steamship Canada last night up to 11 o'clock—the hour the telegraph office was closed at Halifax. She was advertised to leave Liverpool on the 2d.

NEW YORK, Feb. 13.—The Herald's correspondent telegraphs. Mr. Dallas, Minister to England, took leave of the President this evening. He leaves for Philadelphia to-morrow morning to make preparations for his departure by the Baltic on the 6th of March. Mr. Dallas has received his final instructions, but much is left to his discretion. He will not return to Washington, unless the news from Europe should change the aspect of our affairs with England so as to make further instructions necessary. Our relations with Great Britain are considered as very critical.

Philip H. Dallas has been appointed Secretary of Legation.

The long-continued interruption of communication with the Eastern States, by the way of Long Island Sound, has forced upon forwarders the expediency of sending vessels around the outside of Long Island.

THE COLONIZATION SHIP.—The building committee have advertised to receive proposals for furnishing the materials and building the ship until the 25th inst. The ship is to be built at Bath.

WASHINGTON, Feb. 13.—The House Committees and the leading topic of conversation. The Speaker has framed those in charge of financial matters with a view of exact rigid economy from the Administration and to prevent wasteful appropriations by the House. The Administration is acceptably represented on them. The appointment of Mr. Winslow on the Naval Committee was in compliment to the Secretary of the Navy.

It is said that Mr. Aiken declined the Chairmanship of an important Committee, preferring a membership on that of Foreign Affairs.

It is claimed by the friends of Mr. Banks, that every section and leading interest is fairly represented by leading men of all parties.

Information has just been received which represents that the danger of a civil war in Kansas is more imminent than is generally supposed.

The Governor has nominated Moses E. Hamlen of Augusta for Superintendent of Public Buildings.

DEPUTIES.—Mr. Wilson, who is commissioned as Sheriff of this county, has appointed the following Deputies:

James W. Williams, Bangor, Jailor; Alex R. Bartlett, Bangor; Nathaniel Garland, Levi Smith, Nathaniel E. Brown, Exeter; Harvey S. Wilson, Bradley.

JOB PRINTING.

We are now prepared to execute every description of BOOK AND JOB PRINTING, neatly and promptly. We have in our office, in addition to an excellent assortment of Type, to which we are constantly making additions, a

Guernsey Power Press,
Adams' Fast Job Press,
Ruggles' Rotary Card Press,
Large and small Hand Presses,
Paper Cutter, Card Cutter, &c.

A Card to the Ladies.

Dr. Duponco's Golden Monthly Pills for Females.

☞ The combination of ingredients in Dr. Duponco's Golden Pills, are perfectly harmless. They have been used in the private practice of old Dr. Duponco for over 40 years, during which time thousands of ladies (unwilling to be put falsely on the list of deaths) have found in them a sure and safe relief from every chagrin. In correcting irregularities, relieving painful and distressing obstructions, no pills ever gave such perfect satisfaction. In 20 to 24 hrs will come that change so natural to females. Nearly every lady on the land suffers from this complaint. The above Pills as permanently cure themselves, and will last you for a long time. They invigorate the whole system. Ladies whose health will not permit the use of Mercurial or Steel preparations, will find these Pills unequalled. They restore nature to its proper channel, and

STEAMERS.

California Steamers,
Carrying the United States Mail.
4th and 20th of each Month.

Reduced Prices ; 100 lbs Baggage Free

Through Tickets, including the Isthmus, via Panama.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall on the 4th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall and conveyed by rail to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals* on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great expense of lay nights in open boats to fever and ague and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C L BARTLETT, Agent,
No 16 Board Street, Boston.

KENNEDY'S

MEDICAL DISCOVERY.

The Greatest of the Age!

DR KENNEDY of Roxbury has discovered in one of our common pasture weeds a remedy that cures *THIRD AND FOURTH* stages of Scrofula from the worst humors to a common pimple. He has tried it in over seven hundred cases and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of blotches.

Five bottles are warranted to cure the worst cases of scrofula.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corruptand running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Two to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed growing upon the pastures and old rotten walls should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are roots not more than six inches long, some taken but not yours. Less is peddled over a thousand times in the vicinity of Boston and known by the city to cure in every case. It has already done some of the most astonishing cures ever done in Massachusetts. Here it is to children a year old, to old people of 80 years, and has been many looking children whose skin was as fair and flattery restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will effect a cure. It gives great relief in catarrhal and dizziness. Some men have taken it and have been cooled by it. When the body is aspired it works quite easy but when there is any derangement of the functions of nature, it will cause very unusual feelings, you must not be alarmed—they always disappear in four days to a week. If there is never a bad result from it—on the contrary when that feeling is gone you will feel yourself like a new person. I heard some of the most extraordinary endorsements of that ever man I ever knew.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19 1855.

This is to certify that H H HAY, Druggist Portland, is the only AUTHORIZED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

SPERM AND WHALE OIL—20 bbls for sale low by
jan8 J. S. INGRAHAM.

DOCTOR CHEOFLAND'S CELEBRATED
GERMAN BITTERS,
PREPARED BY
Dr. C M JACKSON, Philadelphia, Pa.
WILL EFFECTUALLY CURE
Liver Complaint, Dyspepsia, Jaundice,
Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach,
such as
Costiveness, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying posture, Dimness of Vision Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs,
Sudden Flushes of Heat, Burning in the Flesh, Constant Imagining of Evil, and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article but one that has stood the test of a ten years trial before the American people, and its reputation and sale is unparalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense. The following from your own State is respectfully submitted, referring any who may entertain a doubt to any "Methodist," or Practical Resident Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

Principal office and manufactory, 120 Arch st, Philadelphia, Pa

TESTIMONY FROM MAINE

Capt Daniel Abbott Hopkinton, Maine, July 16, 1855, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last I took up a newspaper having in it your advertisement of Hoofland's German Bitters in it, and concluded to send for some immediately. Thus I did about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper and rested well that night and the next day I found me a well man. I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it.

Jos B Hall & Co Prince Isle Aroostook Co, Maine, April 24 1854 says "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity and have no doubt of the truth of his statement.

Messrs Jos B Hall & Co.

Gentlemen—In answer to your inquiries I will state that my daughter aged about 16 years, has been complaining of a pain in her side for six years, and about the first of January last was taken down and confined to her bed. The pain her side was very severe, besides being troubled with pains between her shoulders and in her chest. I was resulting a number of cures performed by Hoofland's German Bitters, I was induced to procure them in her case, and sent to our store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her health entirely to the German Bitters.
WILLIAM CLARKE
Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally—and by J S INGRAHAM Bangor; W B Morrell, Dexter; L B Paine, Lincoln.

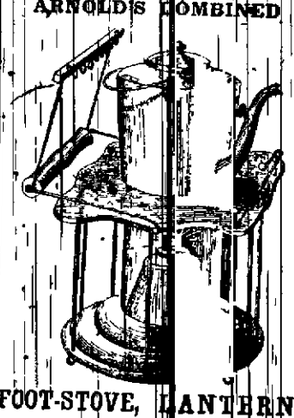
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,
AND
NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose as it can be sufficiently heated in less than five minutes to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an alcohol or fluid lamp, the flame of which is protected from every external object.

As a LANTERN it answers all the usual purposes, and is less likely to be overset or get broken and can be used as a horse lamp with equal advantage.

As a NURSE LAMP in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c, it will be found very convenient as a quart of water can be boiled in fifteen minutes and a flat iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily considered by every one. No further description is required as no one can misunderstand its use in general. Suffice it to say any thing more respecting its adaptability to a hundred purposes would not be telling what our readers cannot see at once for themselves.

For sale, wholesale and retail at
No's 16, 17 and 18 Central Street Bangor.

dec15d&w

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV WALTER CLARKE
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of this blessing.

Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each

Extract of a letter from Daniel Adams, Esq., of Boscobomham, Maine.
FEBRUARY 7th 1853

To Rev Walter Clark. Dear Sir—I have taken of your Cough Mixture which I bought of you at Topsham and find the effect exactly what you represented it. I was also troubled with a cough for two years—that bottle entirely relieved it.

From Rev Jesse Hoyt, Lewiston Falls

Rev. CLARKE—Every bottle of the Universal Cough Mixture which you left with me is sold—and I have several applications more. As far as heard from all have been perfectly satisfied with the medicine. One man, who had a cough for 15 standing attended with pains in the chest and shortness of breath, so that he was hardly able to do business, purchased one large bottle, and before he had taken one third of it, was perfectly relieved, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.
JESSE HAYES

From Mr Fletcher Chick, agent for North Dixmont Maine

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture, in this place. Several who had a severe cough standing, and there, who have been doctored for months without receiving any benefit have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike Me

To Rev. Walter Clark Dear Sir—I feel myself bound to say that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the throat, and I positively taken so great a dose of medicine and had been under the care of several physicians without obtaining the relief half so soon as your Universal Cough Mixture was recommended to me. In short a bottle and a half of it took away the cough according to directions on the label, by which in a few days I was entirely cured.
MRS HARRIET HUBBARD

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment, and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years and is offering it to the public we are not ignorant of its superior. We know it to be the greatest ALLEVIATOR OF PAIN and SUFFERING to those afflicted with any kind of humor, and fully one of the greatest blessings to mankind ever before the public as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

LAWRENCE, June 12 1854

We the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr E D Hayes, of this city, and being personally acquainted with the Doctor feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unlike other remedies in the market this preparation performs its office speedily and with certainty. The Ointment we have used with the most happy success it, allies vainly seeking relief by the free use of Sarsaparilla, Bitters, &c. &c.

Our experience fully justifies us in confidently recommending it as the article and the only cure known to us as performing all it claims

A S BLNKER A W STERNS
BITTON THOMPSON ASA T SANBORN

IT CURES.

The Salt Rheum, Scrofula, Erysipelas White Leprosy Cancerous Humors Ring Worms, Scald Head Burn and Scalds, Chilblains Boils, (a preparation) expressly, Barbers Itch, Fever Sores and all old Mercurial Sores however long standing. It removes all those vexatious Pimples that spring up on the cheek or Mildew from the face, leaving the skin perfectly soft and clear in adding greatly to the beauty of complexion. Never, in no case will it leave the least mark or scar. It will draw humors from the Stomach Lungs Throat, and from the Head and Eyes, by an outward application. It improves the sight wonderfully when the eyes are troubled with humors by removing the difficulty, and restoring the sight.

Hayes' Pile Ointment,

HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Buchu

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY
For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,
and all Diseases of the Sexual Organs, whether in
MALE OR FEMALE
from whatever cause they may have originated and
No Matter of How Long Standing

This popular and specific remedy is now offered to the afflicted and guaranteed to cure all the above complaints. It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent

This medicine allays pain and inflammation which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Met ical Quacks,

and from premature graves. In cases of infection the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAME CURES

It contains no patentic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no offensive odor and may be taken by persons of either sex without hindrance from business or without advice as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous

With this medicine you can cure yourself, and thus prevent all exposure

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient in a perfect state of *Health and Purity*—And as a medicine which must benefit everybody, from the simply delicate to the confined and discouraging invalid, no equal is to be found it acting both as a *Cure and Preventive* of any of the above ailments

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,
—FOR—
Purifying the Blood removing all diseases arising From Excess of Mercury, exposure and improper use in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, scaly head, Ulcerations of the Throat and Legs, Pimples in the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the complishment of different menstrua in successive operation to take up the extractive matters, and, in consequence are most frequently improperly made, and not frequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and a fact, that there should be a standard preparations of uniform strength and possessing the most advantageous. To effect this, and obviate the evil alluded to, I have made a number of experiments to discover from the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. These experiments have resulted most favorably and it with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink and one bottle fully equals in strength one gallon of Syrup Sarsaparilla of decoction as usually made.

PRICES—
Fluid Extract Buchu, $1 per bottle, or 6 for $5
" " Sarsaparilla, " "

Certificates of cures and recommendations from distinguished professors and physicians will accompany each preparation.

Prepared and sold by
H. T. HELMBOLD,
Practical and Analytical Chemist,
No 263 Chestnut st, near the Girard House,
Philadelphia.

To be had of Druggists and dealers in every section of the United States and Canada.

All letters for the medicine directed to the proprietor, receive immediate attention, and safe deliveries guaranteed.

Rogers' Syrup of Liverwort,

Tar and Cinchalagua, for Cough, Colds, and Pulmonary Complaints, for sale by
H. W. FULLER.

A MARVELLOUS REMEDY
For a Marvellous Age!!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies—Through these this Ointment when rubbed on the skin is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness—This Healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin whatever form they may assume as has Ointment No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers,

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings and tumors. Professor Holloway has, by command of the Allied Governments despatched to the hospitals of the East for the sum of this Ointment to be used under the direction of the Medical Staff in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

Piles and Fistulas

Those and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases

Bunions,	Lumbago,
Burns,	Rheumatism,
Chapped Hands	Sore throats,
Chilblains,	Skin Diseases,
Fistulas,	Sore Legs,
Gout,	Sore Nipples,
Lumbago,	Sore Heads,
Rheumatism,	Sore throats,
Ulcers,	Sore old Sores.

Erysipelas, Piles, Scalds, Wounds, General Sores, Coughs, Colds.

*** Sold at the Manufactories of Professor Holloway, 80 Maiden, Lane New York, and 244 Strand, London and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world in Pots, at 25 cts, 62½ cents, and $1 each.

There is a considerable saving by taking the larger sizes.

N B Directions for the guidance of patients in every disorder are affixed to each Pot.
